PRINTWEAR GUIDEBOOK

Just Relax

Built for embellishing

American grown, ring spun comfort.

Our ComfortWash® tees and sweats deliver garment dyed tones with a vintage washed, ultimate softness that will leave your skin smiling. These 5.5 ounce 100% American grown ring spun cotton tees and 7.2 ounce 80/20 sweats will become your customers' go-to favorites. Now available in 24 on-trend colors and eight silhouettes. With ComfortWash®, you don't have to sacrifice softness to get the look you love.

Simple mistakes can be cleaned up.

No one is perfect—things happen, like inky-fingers, creases in garments while printing or a kicking squeegee in places you didn't want. And we all know what that means—lost garment and lost time. Where most garment dye products fall short and can't handle shoot out, ComfortWash® can. It not only saves a garment from the rag bag, but also helps you meet that deadline—keeping your customer happy.

Accurate sizing & always in stock.

Garment dyed color and style options are great when they're in stock. Some others may say they got 'em, but if mistakes happen will you be able to get replacements? With ComfortWash®, that is an affirmative. All styles, all colors, in stock, all the time.

Eliminates dye migration.

When standard plastisol ink meets a synthetic fiber, a bleeding or dye sublimation can happen—creating an undesirable result. White ink can have a pink cast on red garments. The old school method to offset the issue was to use poly-based inks as a base, also known as a thick sweat-patch. ComfortWash® eliminates the need for that. So, print as you like—ComfortWash® has stopped the bleeding.

The transparent path to responsibility

Hanesbrands wanted to know how our commitment to sustainability measures up with millennials. So we opened our doors to three university students and gave them full access to our supply chain. The result? Welcome to Crop to Campus.

What does sustainability mean? Who defines it? And to whom is it important? Follow three textile majors at NC State University who embarked on a behind-the-scenes, all-questions-answered journey from seed to screen printer,

accompanied by documentary filmmaker Rod Murphy. The documentary film was featured at a series of virtual gatherings and film festivals.

Visit CropToCampus.com to follow along with Hanes® and ComfortWash® as we share their journey. Each episode focuses on a different key aspect of a responsibly made t-shirt.

Step 1

Every ComfortWash® garment begins with U.S. grown cotton, mainly grown in America's southern states on naturally irrigated local farms.

Step 2

The cotton travels to an energy-efficient, zero-waste facility within the U.S.—then spun into a superior, softer yarn.

Step 3

The garments are cut and sewn in a Hanes® owned, locally employed facility in El Salvador. Our plant utilizes on-site renewable energy production including its water-treatment process.

Our Future Aspirations

We believe it's our responsibility to drive the kind of behavior and actions that will protect the place we all call home. This responsibility is part of our DNA and has been for decades.

So, looking ahead to 2025 and 2030, we're ramping up our efforts to pursue ambitious goals that will improve the lives of people, protect the planet and generate world-class sustainable products.

Improving tens of millions of lives through diversity and inclusion, workplace quality, health and wellness, education and community-improvement philanthropy.

Setting science-based targets to cut greenhouse gas emissions and water use by 25%, moving to 100% renewable electricity and taking landfill waste to zero.

Using 100% recycled polyester and sustainably sourced cotton, cutting all single-use plastics and reducing packaging weight by 25%.

Thank you for helping my school.

We have four of the best brands in the business, with great styles for every customer need. And now, for every piece of our apparel* you purchase from wholesalers for embellishment, the school of your choice will receive a cash rebate of \$0.10.

To date, we have given more than \$1 million to schools.

Just create an account, then fill out the online rebate form. It's that easy. Upload your wholesaler invoices with purchases of our products and select a school to receive the rebate check.

The Hanes4Education program lets YOU be the hero in your community.
