The first, and still the leaders

We've been doing this for a while now. In fact, we were the first brand to invest in the screenprinting industry. From innovations such as Beefy-T®, a heavier weight, 100% ring spun cotton tee specific to printing to the latest tech, like Clean Canvas™, we've always stayed in tune with embellishers through time and have listened to trend reports and innovations in the channel to see where we go next. Our future depends on a partnership that can advance "the art of apparel."

The legend lives

1975 was a good year — the legendary Beefy-T® was born. Our 6.1 ounce, 100% ring spun cotton tee was conceived from creative minds to provide engineered apparel specifically for the imprint market. With 45 years of thick, rich comfort and durable construction, the Beefy-T continues to be a top-shelf choice for your customers.
