AMERICAN MADE

2020

WWW.USBLANKS.NET

**“THE FASHION INDUSTRY IS THE 2ND MOST ENVIRONMENTALLY DESTRUCTIVE INDUSTRY IN THE WORLD.”
 - WORLD WILDLIFE FUND**

At US Blanks, we constantly strive to make our materials more sustainable, and lessen our impact on the planet. We source locally, use US grown yarn where available and offer natural, organic and recycled options, where we can.

We run a socially responsible operation, with fair, safe and healthy working conditions, and all our hourly pay meets or exceeds the California minimum wage. We offer full health benefits, 401K and paid time off to our entire team – cutters, sewers, sample makers, warehouse pickers and packers, and our office workers alike.

Every year we donate garments to help support organizations that are making a difference for our people, planet and animals.

Please reach out to us and let us know if you have a cause, close to your heart, that we can help with!

US BLANKS

VERTICAL MANUFACTURING

At **US Blanks**, our entire collection is designed and crafted in America. From concept and development to fabric production at our textile mill, and in-house garment cut and sew.

We produce our fabrics locally through our partner knit and dye facility, currently the largest textile mill in the USA, outputting millions of yards of fabric weekly. Our fabrics are knitted and finished on only the highest quality machines, under the supervision of a team of textile engineers. Our superior knit fabrics are considered some of the best in the world.

We stock dozens of fabrics in our textile warehouse and are constantly innovating and searching for sustainable options to sit alongside our classic cotton and cotton blend fabrics.

The majority of our cutting and sewing is done right here, in-house at **US Blanks**, where our modular sewing teams help construct the finest quality garments. We are continually expanding our internal manufacturing base to become even more efficient in an effort to achieve the best crafted garments possible.

4726 LOMA VISTA AVE, VERNON, CA 90058

SUSTAINABLE

US Blanks offers on-trend but timelessly classic pieces that will still be stylish well after the year is over. We manufacture all of our product locally, with fabric from our partner mill and cut and sewn in a fair wage environment. We have styles from sustainable, organic and upcycled materials.

500,000 tons of micro-plastics, equivalent of 50 billion plastic bottles, are released into the ocean each year through washing our clothes. This year we have introduced a 100% cotton fleece as an alternative to the tri-blend and cotton/polyester options on the market. We also have around 50 pure cotton styles to choose from!

Aside from the innovative fabrics, local manufacturing and fair wage environment for our workers, we build sustainability into our design concept. We use the best quality materials, and produce products that are built to last. Fashion production makes up 10% of humanity's carbon emissions, and what's more, 85% of all textiles go to the dump each year. So don't just buy more - buy local, buy sustainable, and just buy better.

OPTIONS

SEE THE FOLLOWING STYLES:

100% Cotton Fleece

A natural alternative to synthetic fleece - pure cotton, no micro-plastics and less pollution to our water systems.

US4412 - UNISEX 100% COTTON PULLOVER HOODIE
